Every seat. Filled.

The AI back office for engineering & degree colleges — a Telugu-speaking AI counselor that answers parents in 60 seconds and **books campus visits by itself**, ₹-level ROI on every rupee of ad spend, one login per staff member, NAAC–AQAR autopilot and a voice placement copilot.

Seats are going empty. Parents decide at 11pm — your office is closed.

- ~47% of engineering seats vacant in Andhra Pradesh (state data).
- Parents compare 3–5 colleges **on their phone, at night** — the first college that answers honestly, wins the visit.
- Staff are busy, counselors repeat the same answers, follow-ups slip — and the ad budget keeps burning.

THE GAP: CRMs count leads. Nobody talks to the parent at 11pm. That's the gap SeatSetu fills.

One tool. Three revenue problems solved.

Admissions — AI counselor

- Answers fees, hostels, buses, ranks — **only from YOUR approved facts**, with citations
- Books campus visits & sends brochure PDFs **by itself**
- Every enquiry becomes a scored, source-tagged lead

Accreditation – AQAR autopilot

- Marks Excel → attainment reports → evidence vault → readiness % before Dec 31

Careers — placement copilot

- Voice mock interviews, STAR scoring, NAAC 5.1.2 evidence export

Actual tool screenshots: the parent's Telugu question gets a cited fee+hostel answer — and the visit-booking confirmation creates a real lead + task in the staff dashboard. The AI doesn't just chat; it books.

Your command center: what to do today, and what every rupee earned.

AI that ACTS, not just chats

- URGENT panel: which parents go cold today
- Visit booked → task created → document checklist sent automatically
- Reply Coach drafts the counselor's WhatsApp line

Money truth, not vanity metrics

- Cost per JOINED student vs ₹3.4L seat value — not "leads counted"
- Source attribution: which ad actually produces joins
- Principal's Monday digest in plain words — one tap to WhatsApp

SAY: "Your staff opens one screen each morning — it tells them exactly who to call. And you see what each rupee of ad spend brought in."

Honest by design — "100% guarantee unda?"

RIT Kadapa

College Knowledge Pack

The AI answers ONLY from these approved facts (tables for exact numbers + prose for grounding). One guided session = 45-90 min with the Principal.

ABOUT & LOCATION

Rayalaseema Institute of Technology (RIT) is an AICTE-approved engineering college on the Kadapa-Proddatur highway (5 km from Kadapa railway station, 15 min from the bus stand). Established 2009. Campus: 12 acres, 42 labs, central library, boys & girls hostels, Wi-Fi campus, indoor games, ATM. Affiliated to JNTUA, Anantapur.

Established 2009.

ADMISSION PROCESS

How to join RIT:
1. EAPCET route: attend certificate verification, enter RIT (code RITK) in web options.
2. Management quota: visit the college admission cell with documents; book a branch seat with a token (adjustable in tuition) — refund policy is explained in writing by the office.
3. Documents: EAPCET hall ticket/rank card, SSC & Intermediate memos, TC, study certificates 6th-12th, caste & income certificates (for JVD), Aadhaar, photos.

How SeatSetu answers — live screenshot

- **Public numbers only**, with the source printed in the answer (AICTE approvals)
- **Credit where due** — names their strength honestly; no badmouthing
- States **your edge**, then converts: rank maths + a free campus visit offer
- College not in your pack? **Honest refusal** — "I will not guess another college's fees."

Why this wins admissions

- Parents hear honesty from the very first answer — trust transfers to the college
- Competitors' chatbots dodge or badmouth; yours cites sources

1 • It answers when you can't

- 11pm, Telugu, with YOUR facts — the first college that answers wins the visit.

2 • It books visits by itself

- Enquiry → visit booked → checklist sent → task on staff's list. Seats fill in the follow-through, not the ad.

3 • It cannot lie

- Approved facts only, citations, honest refusals — your reputation and legal safety by design.

4 • You see your money truth

- Cost per JOINED student per source — move budget to what actually fills seats.

5 • Your whole staff runs on it

- One login per person, exactly the right screens, Help in their language — adoption without training day.

6 • Students improve on their own

- Practice Passes: unlimited voice mocks on any phone — placement readiness climbs without extra staff hours.

7 • Zero-risk start: live in 7 days with onboarding done FOR you · first-season guarantee: if it doesn't out-work your current process, don't renew · your data exports with one click.
