

Pricing, ROI & Comparison

Why ₹49k/₹39k/₹39k (₹99k bundle) is the sweet spot — the math from the college's side and ours.

1 • The price list

Module	Price	What the college gets	Anchor it replaces
 Admissions (season license)	₹49,000 first 5 colleges: ₹25,000	AI counselor (Telugu+English) on their website/QR/WhatsApp · 60-second replies · automatic follow-ups · counselor to-do app · cost-per-join attribution	₹2–10L/yr admission CRMs; ₹40k hoardings that answer nothing
 Accred (annual)	₹39,000	CO-PO attainment from their Excel · AQAR evidence vault + readiness % · gap analysis with drafted actions · Bloom-mapped question papers	₹1–10L NAAC consultants per cycle
 Careers (annual)	₹39,000	AI mock interviews (Telugu-English) · STAR scoring & readiness reports · one-click NAAC 5.1.2 evidence export	₹15–30k one-day "placement training" workshops
Growth-OS bundle	₹99,000 intro: first year	All three, one relationship, priority support in Telugu	The sum: ₹1,27,000 → bundle saves ₹28,000

2 • The college owner's math (why it is worth it)

One management seat pays for everything

Management-quota CSE seat $\approx$ ₹85,000/year $\times$ 4 years = ₹3.4 lakh.
The full bundle (₹99k) pays back $\sim 3.4\times$ if the AI fills **one single extra seat** — and it works every enquiry, every day, all season.

Even a convener seat covers Module A alone

Convener seat $\approx$ ₹35,000 $\times$ 4 = ₹1.4 lakh lifetime value. Module A (₹49k) pays back $\sim 2.8\times$ on one seat. Two extra joins $\approx$ ₹6.8L value against ₹49k — a **14 $\times$ return**.

What they spend today (that does none of this)

Current spend	Cost	Follows up?	Answer in 60s?
Hoarding (season)	₹40,000	$\times$	$\times$
Newspaper (10 days)	₹30–60k	$\times$	$\times$
Telecaller (12 months)	₹1.8L + training	partly	hours
NAAC consultant	₹1–10L/cycle	—	—

The vacancy context (their pain, quantified)

$\sim 47\%$ of AP private-college seats went vacant last season; MTech 64% nationally. A college with 600 intake and 40% vacancy is losing **~ 240 seats $\approx$ ₹2–4 crore** of lifetime fee value per year. ₹99k is 0.003–0.005% of that loss.

3 • Competitor comparison (what the market charges)

Tool / alternative	Price to college	Telugu AI?	AQAR/Accred?	Placement training?	Local support?
Meritto (admissions CRM)	₹8–20L+/yr	✗	✗	✗	metro team
ExtraaEdge	₹6–12L/yr	✗	✗	✗	metro team
LeadSquared Education	₹12–15L/yr	✗	✗	✗	metro team
Salesforce Education Cloud	₹7–30L+/yr	✗	✗	✗	partner-driven
Classe365	~₹8L+/yr (USD 100/mo base)	✗	partial	✗	remote
NAAC consultant (offline)	₹1–10L per cycle	—	manual	✗	city-by-city
"Just use ChatGPT"	\$20/mo	partly	✗	✗	✗ — no credentials, no audit trail, invents facts
SeatSetu bundle	₹99k first year	✓ native	✓ built-in	✓ built-in	Ongole — 20 min away

Positioning line for the pitch: "We are not 10% cheaper than Meritto — we are 90% cheaper and speak Telugu. We are not a little faster than a consultant — we are 20× cheaper and the math is verifiable."

4 • Our side of the math (why these prices hold)

- 1 Cost to serve:** ₹4–8k/college/year (free-tier infra + WhatsApp ~₹0.15/msg) → ~92–95% gross margin at list price.
- 2 Break-even ≈ 10 colleges** (covering PSS's part-time delivery time); every college after that is margin.

- 3 **Why not ₹19k?** Too cheap = no service budget, no principal trust, and invites churn. ₹49k prices at one-third of the nearest credible alternative while leaving room for the ₹25k intro offer.
- 4 **Why not ₹1.5L like enterprise CRM?** Tier-3 fee blocks (~₹35k convener fees) cap what colleges can spend; the winning move is 10× under the incumbents, whom metro sales teams anchor high.
- 5 **Renewal design:** three independent renewal clocks (season + AQAR Dec-31 + placement year) — one college ≈ ₹1.27L/yr at full stack.
- 6 **Intro pricing** (₹25k Module A / ₹99k bundle, first 5 colleges) buys case studies + referrals — the GTM fuel for years 1–2.

Objection cheat-sheet:

💬 "Too expensive" → "One extra management seat = ₹3.4L. We cost less than one-third of that."

💬 "We already have a CRM/website" → "Great — we plug into it in one line and do what it can't: answer parents in Telugu in 60 seconds."

💬 "Send a quote, we'll think" → "Give me one hour with your AO this week — see it on YOUR website before you pay anything. First season has a renewal guarantee."

💬 "Govt college / no budget" → Start with Module B only (₹39k against a ₹1–10L consultant quote) and add modules after AQAR season.
