1 Signing in — two doors, one dashboard

Open your dashboard URL and press **Sign in**. There are two doors:

- 1 **Staff:** type the **username + password** your Owner gave you (e.g. **counselor**). You land directly on YOUR work screen.
- 2 **Owner (Admin Key):** leave the username **EMPTY** and type your Admin Key as the password. You see everything, including Staff & Roles.
- 3 **First login?** Change your password immediately: **? Help** → *Change my password*. Forgot it? Only the Owner can reset it (Staff & Roles →  Reset password).

► The login page explains both doors in plain English + Telugu.

✓ **You only see what you were allocated.** A counselor sees their To-Do and leads; a Director sees numbers; nobody sees what the Owner did not give them.

2 Overview — your command center (2 minutes a day)

1 🎯 **What to do today:** the panel at the top IS your morning. URGENT = parents going cold. Press **Go →** to jump to that screen.

2 **KPI row:** total leads, joined (🎓), visits booked, follow-ups due, open tasks.

3 **₹ cards:** enter ad spend in Settings first — then read **Cost per Lead** and **Cost per JOINED student vs ₹3.4L seat value**. This is your money truth.

4 **Funnel & Source cards:** find the cheapest source that produces JOINED students — move your ad budget there.

5 🔔 **Bell (top-right):** red badge = number of urgent items. Click it to jump to the action list.

Every parent enquiry arrives here automatically — website chat, Meta ad, QR hoarding, missed call, referral or walk-in. Each lead has a **score** (hot leads float up), a **source tag** (which ad rupee produced it) and a **stage**.

1 Click the **stage dropdown** and advance as you work: new → ai_engaged → contacted → interested → visit_booked → visited → applied → seat_booked → joined.

2 Tick **consent** before sending any WhatsApp (the law requires it).

3 Lost a lead? Mark it **lost** — the funnel keeps the learning.

4 Use the **source dropdown** when entering walk-ins so ROI stays honest.

💡 The score (0–100) sorts your day: 60+ = call today, 30–59 = this week, below = nurture sequence.

1 On the Leads tab press **↑ Import CSV** and choose a file. Columns: **name, phone, town, branch, source, campaign, rank** — extra columns are ignored.

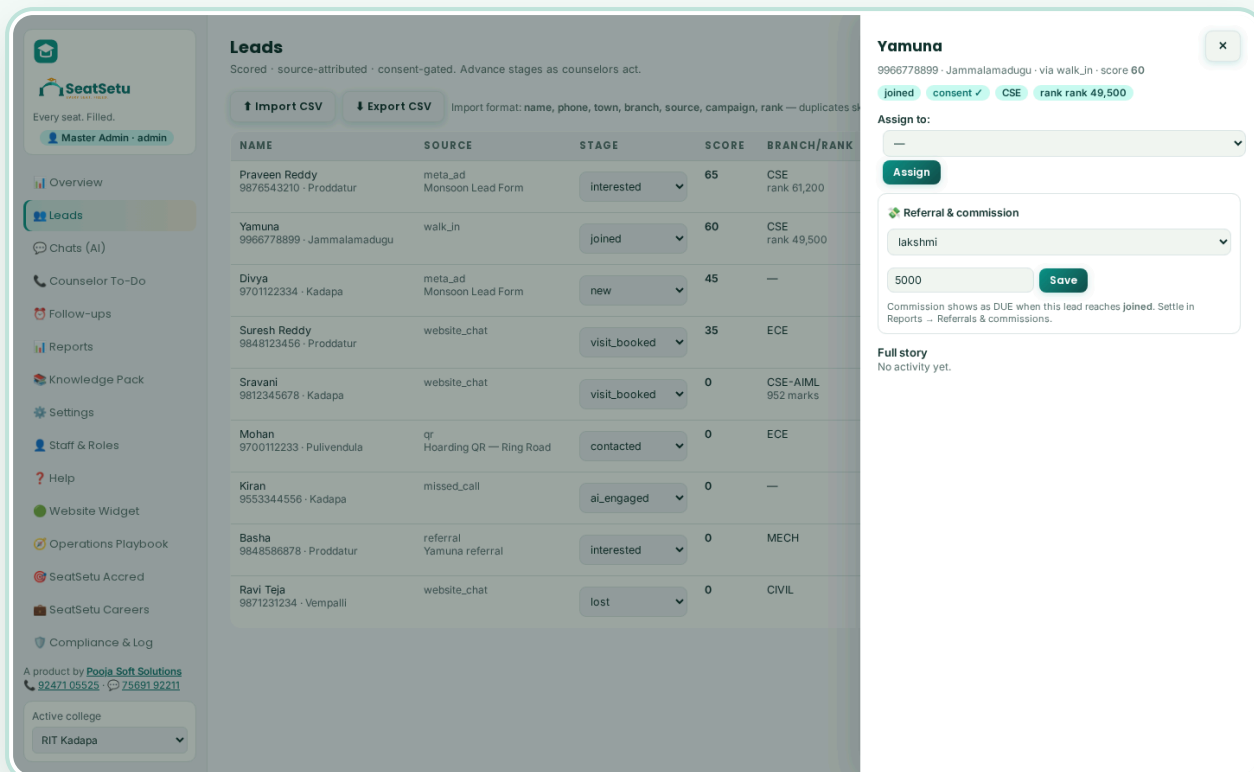

2 Duplicates (same phone) are skipped automatically; the toast shows imported vs skipped.

3 **Privacy by default:** imported parents have NO consent yet — the system never auto-messages them until the parent opts in (DPDP safe).

4 Press **↓ Export CSV** anytime for Excel; Settings → backup downloads the full ZIP.

4 Lead-360° drawer — a parent's full story

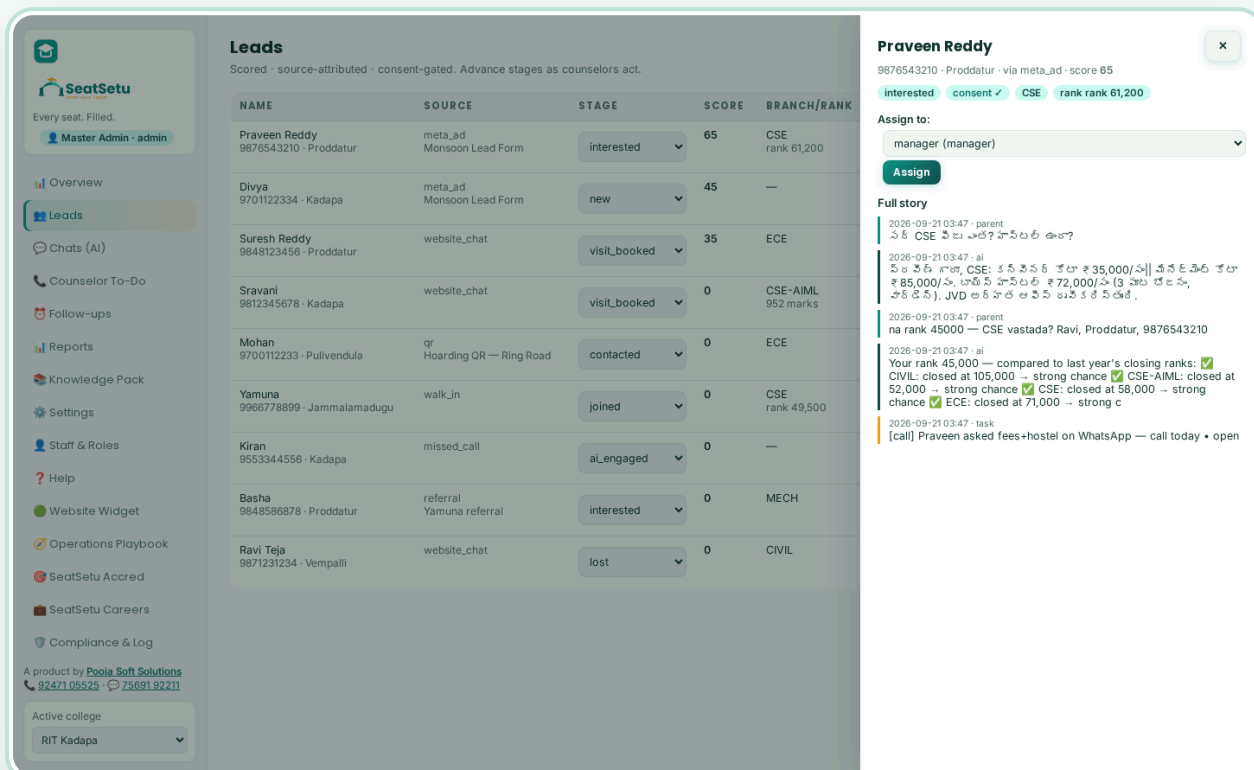

Open any lead row: stage, consent, branch, rank, the AI conversation, follow-ups sent, tasks — plus the  **Referral & commission** block.

The screenshot displays the SeatSetu Leads management interface. On the left is a sidebar with navigation options: Overview, Leads (selected), Chats (AI), Counselor To-Do, Follow-ups, Reports, Knowledge Pack, Settings, Staff & Roles, Help, Website Widget, Operations Playbook, SeatSetu Accredited, SeatSetu Careers, and Compliance & Log. The main area shows a table of leads with columns: NAME, SOURCE, STAGE, SCORE, and BRANCH/RANK. The leads listed are Praveen Reddy, Yamuna, Divya, Suresh Reddy, Sravani, Mohan, Kiran, Basha, and Ravi Teja. A detailed drawer for lead 'Yamuna' is open on the right, showing her contact information, stage (joined), consent status, CSE rank (49,500), and a referral & commission section with a dropdown for 'lakshmi' and a 'Save' button. Below this is a 'Full story' section with a timeline of activities.

NAME	SOURCE	STAGE	SCORE	BRANCH/RANK
Praveen Reddy 9876543210 · Proddatur	meta_ad Monsoon Lead Form	interested	65	CSE rank 61,200

Ravi Teja 9871231234 · Vempalli	website_chat	lost	0	CIVIL

► Lead drawer — assign it, set the staff referral and the agreed ₹ (it becomes payable when the admission joins).

This screenshot shows the same SeatSetu Leads interface, but with the detailed drawer for lead 'Praveen Reddy' open. The drawer displays his contact information, stage (interested), consent status, CSE rank (61,200), and a 'Full story' section. The 'Full story' section contains a timeline of activities, including chat messages from a parent and AI, and tasks assigned to the counselor. The timeline shows messages from 2026-09-21 03:47, including a parent's inquiry about CSE, an AI response about CSE ranks, a parent's question about CSE vastada, an AI response about CSE ranks compared to last year's, and a task assigned to the counselor to call Praveen.

NAME	SOURCE	STAGE	SCORE	BRANCH/RANK
Praveen Reddy 9876543210 · Proddatur	meta_ad Monsoon Lead Form	interested	65	CSE rank 61,200

Ravi Teja 9871231234 · Vempalli	website_chat	lost	0	CIVIL

Click any lead row. A drawer slides in with the complete history: every chat message (parent in teal, AI in white), every follow-up sent, every task — in one timeline. Above it: score chips, stage, branch/rank.

1 **Assign:** pick a counselor in the dropdown → **Assign**. They now own the follow-up (visible in their To-Do).

2 Read the full story BEFORE calling — the parent never has to repeat themselves.

3 Close with the ✕ when done.

5 Chats (AI) — what parents asked, how the AI answered

Every AI conversation, with **citations** (📖 = which approved fact was used) and flags:

What you see	What it means	What to do
citation line	Answer came from YOUR approved Knowledge Pack	Nothing — that's the system working
trap-question handled honestly	Parent asked "100% guarantee unda?" — AI refused honestly	The task list already has a call task — a human should follow up
handed off	Parent asked for a human / complained	Call TODAY from Counselor To-Do

1 Press ✨ **Reply idea** on any conversation — the Reply Coach drafts a ready-to-send WhatsApp line (Telugu or English) for that parent.

2 Copy it, personalise the name, send from the college's WhatsApp.

 **BROADCAST TO PARENTS (CONSENTED ONLY)**
One message to every parent who gave consent and is still in the pipeline — fee-alert, visit drive, last-date reminder. Only text you'd be proud to show anyone: no false urgency, no promises.
e.g. Namaste! RIT Kadapa is open for campus visits this Saturday 10am-4pm. Bring your EAPCET rank card — our admission officer will explain branch options & fees. Reply STOP to opt out.

Audience: 6 parent(s) — consented, still in pipeline [▶ Send broadcast](#)

Mohan	contacted	step 1	2026-09-20 22:10	DUE
Basha	interested	step 2	2026-09-20 22:10	DUE

1 Write the message (≤600 chars) — visit drives, fee-alerts, last-date reminders. Keep it something you'd be proud to show anyone: no false urgency, no promises.

2 The **Audience** counter shows exactly who will receive it (consented + still in the pipeline). Press  **Send broadcast** and confirm.

3 **WhatsApp live?** In mock mode it is logged (safe demo). The Owner adds **WHATSAPP_TOKEN** + **WHATSAPP_PHONE_ID** in Vercel env vars → the same button sends real WhatsApp messages. Test it first in Settings →  Test WhatsApp sending (sends to your own mobile).

4 Every broadcast lands in the audit log and on each lead's timeline.

 Never send someone who said STOP — the system already blocks it. అవే నీన వాడి కి వెళ్ళేట ఊడ చు — నీ నేను ఆటోవేటి కి గా చీలాకె చేసే ఊడి .

 WhatsApp sending is mock (log) until the Owner turns on the WhatsApp Cloud API keys in Vercel — Pooja Soft Solutions switches it on for you.

College Knowledge Pack

The AI answers ONLY from these approved facts (tables for exact numbers + prose for grounding). One guided session = 45-90 min with the Principal.

ABOUT & LOCATION

Rayalaseema Institute of Technology (RIT) is an AICTE-approved engineering college on the Kadapa-Proddatur highway (5 km from Kadapa railway station, 15 min from the bus stand). Established 2009. Campus: 12 acres, 42 labs, central library, boys & girls hostels, Wi-Fi campus, indoor games, ATM. Affiliated to JNTUA, Anantapur.

Established 2009.

ADMISSION PROCESS

How to join RIT:
1. EAPCET route: attend certificate verification, enter RIT (code RITK) in web options.
2. Management quota: visit the college admission cell with documents; book a branch seat with a token (adjustable in tuition) — refund policy is explained in writing by the office.
3. Documents: EAPCET hall ticket/rank card, SSC & intermediate memos, TC, study certificates 6th-12th, caste & income certificates (for JVD), Aadhaar, photos.

Add the 2–3 nearby colleges parents always ask about — **public numbers only** (their fee, placements %, closing ranks) plus a **source note**, their strength and your edge. When a parent asks "RIT vs Sri Vision?" the AI compares honestly from exactly these numbers — credits their strength, states your edge — and offers a campus visit. For unlisted colleges it politely refuses to guess. That honesty wins parents.

Operations Playbook the full working flow
Run a college end-to-end with this sequence. Click any step to jump to the right tab. Blue = do once · Teal = every admission season · Amber = deadlines.

1 Create the college
Overview → use Onboard (or API) → college record + staff are created. Fill name, city, EAPCET code, phone.

2 Build the College Knowledge Pack (45-90 min with Principal)
Knowledge Pack tab → paste about/location/process, edit courses & fees table → Save & re-index. THE AI ONLY ANSWERS FROM THESE FACTS — exact numbers here = exact answers to parents.

3 Test the counselor like a suspicious parent
Website Widget tab → open the widget → ask fees in Telugu, ask the 100%-guarantee trap, share a phone number → check lead appears in Leads.

4 Embed on the college website
Website Widget tab → copy the iframe snippet → college webmaster pastes before . WhatsApp live: add WHATSAPP_TOKEN + PHONE_ID in env, point Meta webhook at /api/webhooks/meta-lead.

5 Connect lead sources (season start)
Attach Meta lead-ads form (webhook), hoarding QR → wa.me link, missed-call number. Every source is auto-tagged for attribution.

6 Run the daily rhythm (5 min/day)
Overview → check due follow-ups + open tasks → Follow-ups tab → Run scheduler (sends day-2/7/12 bilingual nudges; consent-gated) → Counselor To-Do → clear calls.

7 Work the funnel weekly
Leads tab → advance stages (Interested → visit_booked → joined), assign counselors. Overview shows cost-per-source → move ad budget to cheapest joins.

8 AQAR season (Sep-Dec) — the Dec 31 clock
SeatSetu Accred → create course regs → upload each course marks Excel (sample CSV provided) → attainment reports → add exit survey → evidence vault: collect items, mark done → readiness % → Dec 31.

9 Placement season (Nov-Apr)
SeatSetu Careers → run mock interviews per student (Telugu-English answers) → readiness scores → Export NAAC evidence CSV → drop into the AQAR vault (5.1.2).

Ten steps from onboarding to AQAR season — written for busy people. New staff member? Point them here (their Help tab covers their own role). This is also the demo script card on Overview — the 3-minute version to show any visitor.

Choose File No file chosen

Upload & compute attainment

1 Create course registrations for each programme (one time).

2 **Upload semester marks** Excel/CSV per course (sample CSV provided) → run **attainment** → CO/PO reports + gap analysis appear.

3 **Exit survey:** add pass percentage from survey data.

4 **Evidence vault:** collect items all year, mark done, attach notes. The **readiness %** climbs toward the **Dec 31 AQAR deadline** — the countdown is on your Overview every day.

5 Export evidence CSVs when writing the AQAR — everything dated, everything filed.

15 SeatSetu Careers — mock interviews, two ways

Way 1 — office-led (staff runs it): the placement officer sits with the student, or runs a batch in the lab. The interviewer **SPEAKS** questions aloud (🗣️ en-IN); the student answers by 🗣️ voice or typing in Telugu-English. Weak answers get **panel follow-up probes** ("walk me through it step by step"). **Strict panel** mode scores harder.

1 Enter name / roll / branch / role → **Begin interview**. 5 questions: HR → technical → scenario.

2 Student answers → **Score answer** → instant score + STAR tip. Answer the amber **panel follow-up** when it appears.

3 **Finish & save report** → readiness /5. Every report is a dated NAAC 5.1.2 training record.

4 Export NAAC evidence CSV at season end and drop it into the Accredited vault.

5 Coach everyone listed below 2.5 → re-test. Readiness climbs — that's the story the T&P officer tells.

Practice Passes — students practise by themselves (no dashboard login needed)

Students do NOT get a staff login. The office issues an **8-character Practice Pass**; the student opens **/practice** on ANY phone, types the code once, and practises **unlimited voice mocks** — the same speaking interviewer, the same follow-up probes, the same scoring. They see only their own history. Staff see every attempt in Careers (tagged self-practice), and it files the same NAAC evidence.

- MECH (MECH): intake 60/yr
- CIVIL (CIVIL): intake 60/yr

This season 1 student(s) have already joined us — the rest fill through EAPCET counselling (rank-based) and the management quota (token at the college office).

Honest truth: seats move every day in counselling season — nobody outside the admission office can promise you one. What I CAN do: book your campus visit now, and our admission officer will confirm live status on the spot + guide the token process.

Share your NAME, TOWN and PHONE and our counselor will call you and arrange a campus visit. (e.g. Ravi, Proddatur, 9876543210)

Type or  speak in Telugu or English...

► The seat question — answered with the approved intake table, honesty, and a visit offer (never a promise).

Parents type or **speak in Telugu**, get honest cited answers in seconds, then — the part that fills seats — press **Book campus visit**: name, phone, date, branch. A lead is created, a visit task lands in your To-Do, and the parent gets a document checklist (EAPCET hall ticket, memos, Aadhaar...). They can also request the brochure PDF.

18 Who does what — rhythm per role

Role	Signs in as	Daily/weekly rhythm
Counselor	their own login	Morning 10 min: To-Do top → bottom, press ✓ Done, advance stages. Evening: Follow-ups DUE cleared.
Admin Office	their own login	Enter walk-ins with source, tick consent, book visits, keep Knowledge Pack current, issue Practice Passes.
Management	their own login	Work the funnel in Leads; keep ad spend updated in Settings so ₹ truth holds.
Placement Officer	their own login	Weekly: run mock batches, issue/review Practice Passes, coach below-2.5, export evidence at season end.
IQAC Coordinator	their own login	Sept–Nov: marks Excel → attainment → evidence vault → readiness 100% before Dec 31.
Director	their own login	Whenever: Overview ₹ cards + one-pager. Sees everything, enters nothing.
Principal	their own login	5 min every Monday: Settings → Copy WhatsApp digest → paste. Approvals only.
Owner (Admin Key)	empty username + Admin Key	Staff logins & allocations, system status, the big decisions.

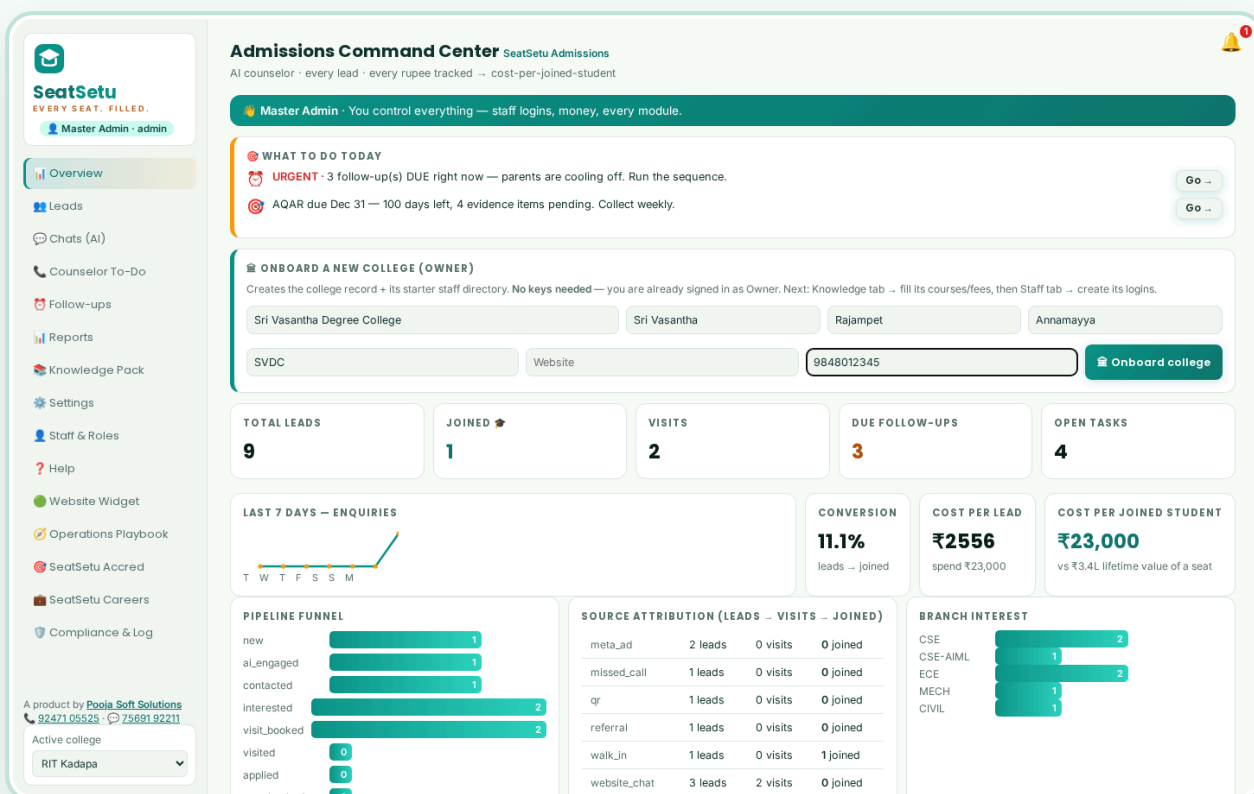

19 First-week checklist + troubleshooting

- Day 1:** Owner changes preset passwords (7 logins) · creates real staff logins · allocates screens · sends on WhatsApp.
- Day 2:** fill the Knowledge Pack (courses, fees, hostels, buses, placements, dates) · add 2–3 Comparison Pack colleges.
- Day 3:** ad spend entered · widget embedded on the website · test chats (fees, hostel, 'guarantee unda?').
- Day 4:** counselor dry-run: chat → lead → call → visit booked. Follow-up scheduler ON. First Practice Passes issued to toppers.
- Day 5:** Monday digest tested to the principal's WhatsApp · backup downloaded · audit log reviewed.

Problem	Fix
AI said something odd	It can't invent — check the Knowledge Pack entry; every answer has a  citation.
Staff member forgot password	Owner → Staff & Roles →  Reset password → send new one on WhatsApp.
Someone sees a wrong screen	Owner →  Allocate — tick the right screens; applies next click.
WhatsApp messages not sending	Sending is mock (logged) until the Cloud API keys are on — ask Pooja Soft Solutions.
Login page rejects the Admin Key	Username must be EMPTY for the Owner door; staff door needs a username.
Student's practice code not working	It may be deactivated () — Placement Officer re-activates it in the Practice Passes card.
Marks upload fails	Match the sample CSV headers exactly (student, roll, branch, marks per subject).

20 Onboard another college — multi-college (Owner)

SeatSetu is multi-college from the ground up. As the Owner (Master Admin) you can run many colleges in this one tool — each college sees **only its own** leads, chats, fees and reports, enforced by the server on every action. **No auth keys or extra configuration are needed per college** — you signed in once as Owner; that is the only key.

Admissions Command Center SeatSetu Admissions
AI counselor · every lead · every rupee tracked → cost-per-joined-student

Master Admin · You control everything — staff logins, money, every module.

WHAT TO DO TODAY
